

Crowdventure.

By Ben Kern. LMUCS Class of 2020.

What is Crowdventure?

Crowdventure is an app that allows you to play interactive Choose-Your-Own-Adventure games, as well as create your own games with crowd-sourced democratically selected answers!

How does it work?

Every time you reach a new situation in Crowdventure, you can choose from the actions that are most popular, or, if you don't like any of the options, you can **suggest your own!**

forns

What was the motivation?

Create-Your-Own-Adventure games are fun, but they always end up being too linear, or require too many resources to be interesting in any way! And then, even if someone makes an interesting game, it might not always go how you want it to!

How do I use Crowdventure?

From any web browser, simply go to <https://crowdventure.github.io/> to play!
(Must create a Crowdventure account in order to use editing/suggesting features)

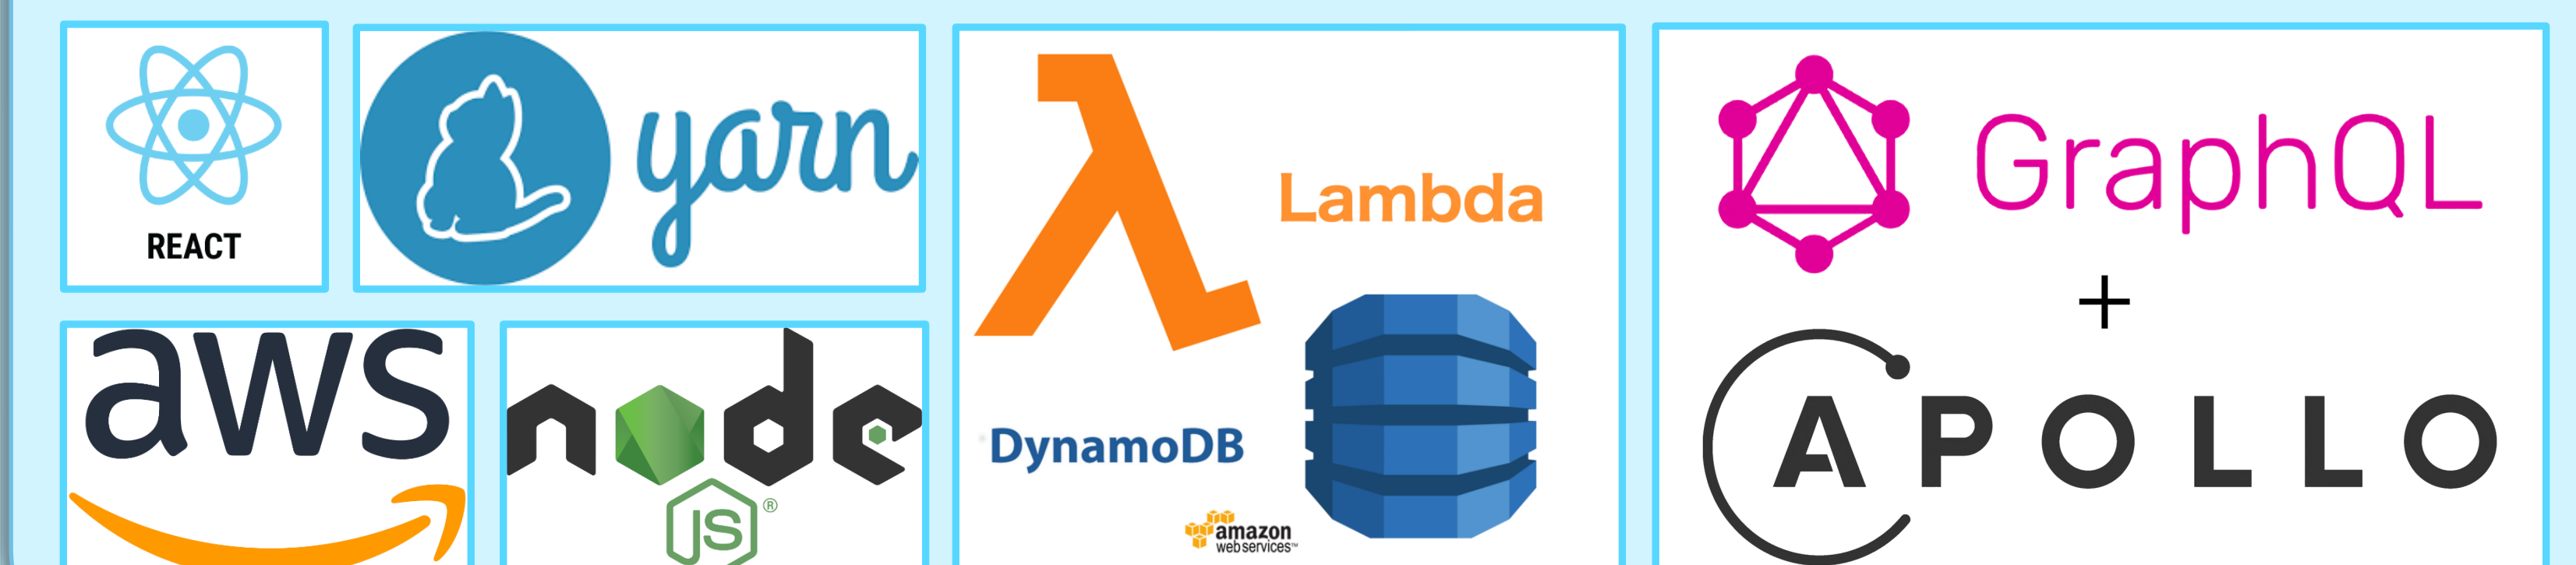

67

What else can you do with it?

- You can upload pictures to customize each situation to be to your liking!
- Within stories you create, you get to pick which actions and alternate storylines you like the best and **add them to yours!**
